

Our Heritage of Unity and Fellowship

This is an email note that I received from Carlos Prazeres, a Brazilian disciple.

“I’m really excited to start reading the other books you sent me. I finished reading OUR HERITAGE OF UNITY AND FELLOWSHIP, and it was amazing for me to discover the reality of my ‘fathers’. It was really wonderful to understand the principles and the reasons of our Movement.

“It gave me a new direction, new insights about the Bible, the church and everything else. I’m telling you this because I had received other information about the Restoration Movement. I really did not know the things I read. I did not know about the real history, the controversies, the ‘Sand Creek Declaration,’ etc. Now I believe we have several brothers, preachers that don’t know about those things.

“Thank you very much! I don’t have words to express my gratitude. And I know I’ll grow up more in Christ after reading and meditating in the other books.”
